## **"REACH" the European Union (EU) Regulation on Chemicals**

Both Ex-Eltronics Incorporated and Ex-Eltronics (UK) Limited have completed a thorough review of the products supplied to all customers.

As a result of this review, no registration will be undertaken by either company in respect of the EU Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals ('REACH')

It is extremely unlikely that any product supplied by Ex-Eltronics (UK) Limited or imported from Ex-Eltronics Incorporated would contain substances, preparations or articles as defined by REACH and in the remote possibility of such an occurrence, then those products would not even approach the quoted threshold of 1 tonne per year.

Ex-Eltronics Incorporated and/or Ex-Eltronics (UK) Limited shall inform our customers if and when any product supplied contains >0.1% by weight of the product any Substance of Very High Concern (SVHC) as soon as this information is brought to our attention by our supplier.

It is therefore our understanding that registration under REACH is not required in accordance with the Scope and Exceptions stated in the Health and Safety Executive (HSE) guidelines.
