

- Mil-Circular
- D-Sub
- ARINC

EMI Solutions provides a wide range of cost effective, easy-to-use EMI FlexFilter inserts configured to your unique Mil-Circular, D-Subminiature and ARINC performance requirements.

Meets
Requirements
for:

- **DO-160**
- **MIL-STD 461**
- **MIL-STD 810G**

NEXT DAY SAMPLES AVAILABLE

- **Quick Turn**
- **Cost Effective**
- **High Reliability**

- ▶ Simple installation - configured to your existing connector
- ▶ Suited for High Voltage and Severe Environments
- ▶ Select Components (Caps, Resistors, Diodes and more) on a pin by pin basis

Transient Voltage Suppression (TVS) Components Available with all FlexFilter Options

Solid Copper Ground Plane With Etched Isolation Channels
Delivers Greater Than 90% Shielding Effectiveness

Optimum Spacing And Isolation Ensures Operation At High Voltages

Rugged Polyimide Material Delivers Contact And Retention Force For Severe Environments

Only EMI Solutions Offers Additional Higher Level Filtering Products

Filtered Connectors

Feed-Thru Filters

Flex Assemblies

Custom Filtering

About EMI Solutions:

Headquartered in our expanded facility in Irvine, California, our company was established in 1996 based on the development of our FlexFilter inserts for EMI filtering. Over the years, EMI Solutions has steadily grown by diversifying our product offering to meet our customer's needs.

With over 20 years of acquired expertise in the EMI/EMC marketplace, combined with continuous improvement in materials and processes used to develop our products to comply with the AS9100 and MIL-810/DO-160 standards, we are now recognized as the leading woman owned small business manufacturer of EMI filtering products for the military and aerospace supply chain, as well as a diversity of commercial applications.
