

Innovation With Integrity

Ex-Eltronics has been a trusted partner to the world's leading military, aerospace, naval and industrial OEMs for over 45 years. We have a proven track record as one of the world's foremost providers of specialist procurement services and cutting-edge technology, tailored for use within mission critical applications.

What We Offer

We specialise in the provision of electronic, electro-mechanical and mechanical components. The scope of our procurement is unparalleled and also extends to a broad range of products and services, driven by customer requirement. We have extensive experience in providing purchasing management services for complex 'built-to-spec' requirements, military 'procure to drawing' items and complete electronic systems, delivered finished and tested in accordance with customer specification.

Program Procurement

The biggest names in defence trust Ex-Eltronics as the partner of choice for the lifetime management of complete bills of materials or specific commodities. We tailor how we work with each of our customers, adding value through integrated services such as kitting, obsolescence screening and management, testing, external component preparation and reprocessing.

Kitting

Our kitting service is also tailored to customer requirement and is performed within the scope and full compliance of our AS/EN9120 approval, ensuring complete kit and certification accuracy.

Technology

Our procurement expertise is now significantly enhanced by official partnerships with renowned international manufacturers, forming the Ex-El Group. These partnerships allow Ex-Eltronics to focus on the additional offering of carefully selected technologies and specialist products, tailored for high reliability, harsh environment, and mission critical applications.

Human-to-Machine Interface Products

- Sub-Systems & Control Panels
- Panel Displays & Light Plates
- Push-Button Switches
- USB Charging Interface
- Data Entry Systems
- Power Converters

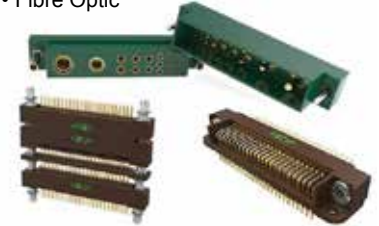

Industry Leading Interconnect Products

- High Power
- Airframe/Powerplant
- MRO & Complex Assembly
- C4i & Body Worn
- Glass Sealed Hermetics
- Micro Solutions
- Data Bus/Bus Couplers
- Fibre Optic

Hyperboloid Contact Technology

- PCB Connectors
- HBH Hybrid Power/Signal
- High-Speed VITA and cPCI Series
- Power Contacts
- Custom Solutions
- Connector Flex Assemblies
- MIL DTL 55302 QPL'd
- Data Bus/Bus Couplers
- Fibre Optic

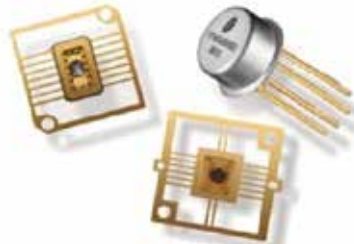

Complete EMI Filtering Solutions

- Filter Connectors
- Filter Modules
- Feed Thru Filters
- Cable Assemblies
- FlexFilter Inserts

Solutions to Obsolete Semiconductors

- Assembly Packaging & Testing
- IC Custom Design
- Die Extraction
- Destructive Physical Analysis (DPA)
- Device Characterisation
- Long Term Device Storage
- Die Sustainability Programs
- Anti-Counterfeit Testing

World Class Wound Magnetic Products Transformers & Inductors:

- Toroidal
- Medical Isolation TRX
- Power
- Audio Output
- Three Phase
- E&I
- UI

Total Diode Solutions

- Diodes
- Standard Rectifiers
- Schottky Rectifiers
- TVS Arrays
- ESD Protection Devices
- Transient Voltage Suppressors
- Zener Diodes
- Wafer, Dice & Flip Chip

Mil/Aero Cable & Box Assembly Solutions

- Tactical Helmet Communications System Cables
- Ground Test Equipment
- EMC & NBC Compatible Cable Harness
- Lightweight & Hi Flex Cable Harness
- Build to Print Wired Systems
- Custom Cable System Design

- EMC Circular Backshells
- EMC Bulkhead Panel Fittings
- D Type & Rectangular Backshells
- M-12 Connectors and Cables
- Profibus Connectors and Cables
- Connector Nut Plates and Rings
- Conduit Systems
- Sleeving and Shielding Solutions
- Round and Flat Metal Braids
- Cable and Harness Assemblies
- Custom Solutions
